

E.A.P SATHSARA EDIRISINGHE

Software Engineer

About Me

I'm recently finished my BSc in Computing & Software Engineering at Cardiff Metropolitan University. I have strong Passion for full-stack web development and enjoy working on various software development projects. I excel in team environments, pride myself on being a fast learner and can easily adapt to new work settings. My experience and enthusiasm for technology drive me to continuously improve and innovate.

G.C.E (Ordinary Level) Examination
Hanwella Rajasinghe Central College
2011-2016

Experience

ICBT CAMPUS - Marketing Department
Intern
2023 May - 2023 August

Intellect Choice IT solutions
Associate Software Engineer
2024 June - Present

Workspace Projects

Web Application for Economic Centres in Sri Lanka (Individually Developed)

Developed a dynamic web application for Sri Lanka's Economic Centres, enabling shop owners to track daily sales effortlessly. A Python script updates sales data from local machines to the server every 15 minutes. Shop owners can log in anytime, from anywhere, to monitor and analyse their sales performance seamlessly.

Skills Summary

- Frontend-HTML/CSS/
Bootstrap / React
- Back end - PHP/ Node js
- Machine learning - Python
- Database - Mysql
- version control : Github
